Dear Parent or Carer

Re: Pathway Review

After completing a pathway review of the year group, your son or daughter has been identified as benefiting from being put on a more challenging pathway. This will take effect immediately and you will notice the change on the reports that go home. Please pass on to your son or daughter the importance of aiming for their new target and I hope this will support their hard work and commitment as we enter an important period of their education with us.

We hope that your son or daughter will step up to the new challenge and continue to make excellent progress.

Yours sincerely

Mr J Peacock
Assistant Headteacher
