Dear Parents and Carers

Re: Revision Help for Year 11 Geography

I am writing to inform you of materials available to geography students in Year 11 that would benefit their revision for PPEs and final GCSE exams next year.

Revision question cards that feature a series of short questions (and answers) that are precisely mapped to the AQA specification are available using the link below. They are ideal for knowledge retrieval activities throughout the GCSE course. They are available for paper 1 and 2 in separate packs at a cost of £4.95 each. www.tutor2u.net/geography

We also recommend the Collins AQA GCSE geography revision book, which is an all in one revision and practice question guide. It covers all the AQA specification that students have studied over the two year course. This is available on Amazon but can also be purchased direct through www.collins.co.uk

Revision sessions will also be held on Mondays, after school in room N016 or N006 with myself and Mr Richards. This will help to prepare students for the upcoming PPEs in December.

I hope this has been of some assistance to you.

Kind regards

Mrs S Allen
Teacher of Geography
