Dear Parent or Carer

Re: Pinterest app/website

I am writing to you to gain consent for your son or daughter to have access to the website Pinterest during lesson time under art staff supervision. Pinterest is a social network that allows users to visually share creative images and create 'moodboards' relevant to a concept or creative theme. It is used in the creative industry, schools and colleges as a sophisticated and valuable research tool to generate ideas and gain inspiration. The quality of images and artist work shown on Pinterest is of much higher quality than available on other search engines and websites.

Year 10 art students have just chosen their coursework theme this term, which begins with thoughtful and thorough artist investigation. Pinterest is free to download as an app or to access online if you wish to look at how it works in more detail. The website requires that you are 16 to access its features, therefore, we require your permission to allow students to use this during school hours. Please complete the reply slip below and return to me in the art department.

If you have any questions or require some further information please do not hesitate to contact me during school hours.

Yours sincerely

Miss S Corless
Head of Art
