Dear Parents and Carers

**Re: Rampaging Chariots project**

Your son has volunteered for and been accepted on the Rampaging Chariots extra-curricular project. This will involve him working on a kit of parts provided by Leonardo UK (an engineering company with a factory in Basildon) one evening per week from now until the event. We have started a little late this year so if possible we would like to work until 5pm on a Wednesday after school.

The competition date and venue has been confirmed as:

Date: Saturday 6 July 2019

Venue: Leonardo UK, Sigma House, Christopher Martin Road, Basildon, Essex SS14 3EL

The final details of the day are yet to be confirmed but in the past, the day has run from 9.00am until 3.30pm and an invitation for parents to attend the event has been included.

You will need to provide transport to and from the event. Your son can attend in non-uniform. Leonardo UK have usually provided a lunch, and drinks are available throughout the event. The venue is part of Leonardo UK, a European defence company, which means they have a strict no use of cameras policy whilst on their site.

I will forward more details of the event as soon as I receive them, in the meantime please do not hesitate to contact me if you have any questions.

Yours sincerely

Richard Parker  
**Teacher of Resistant Materials and Computing**
