Dear Parent or Carer

**Re: Year 13 Intervention Programme**

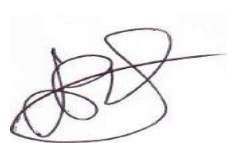

As part of the Sixth Form's work on personalising learning and raising student achievement we would like to inform you that your son or daughter has been selected for an intervention programme following their PPE results last academic year. A small group of Year 13 students have been identified and placed on the programme which will focus on supporting learning and which aims to boost their achievement at A level, therefore improving their chances of a successful placement at their first choice university or employer.

We must make it clear that these interventions should not be viewed as negative or punishment. We aim to give all the selected students individual support and guidance which will lead to excellent results in the summer. We believe these students have a really excellent opportunity to gain their potential and beyond and want to ensure they receive all the support they may need in order to achieve this.

Your son or daughter will be mentored by a member of the senior team at St Martin's on a regular basis, to discuss their current assessment outcomes, revision strategies and their attitude to learning. Their mentor will also discuss and advise on revision techniques and on their progression post 18.

Please do not hesitate to contact me if you wish to discuss further details. Thank you for your continued excellent support.

Yours sincerely

Mr J Beddow  
**Director of KS5**
