Dear Parents and Carers

Re: Coronavirus – Government Advice

I would like to draw your attention to the latest advice from the Government regarding the situation with Coronavirus. As you know St Martin's is an extremely large school and we have over 2000 people on site on any given day. We do not currently have any planned trips to countries or areas of concern but are mindful that parents or close family of our students may have visited these areas on holiday or business trips.

If this is the case could you inform the school if your child has been in contact with anybody that has been to these areas and follow self-isolation procedures. You may find this [link](#) to the Government website useful.

Yours sincerely

Mike O'Sullivan
Headteacher
