Dear Parents and Carers

Re: GCSE Science Revision

Following on from previous correspondence, I have attached additional GCSE Science examination booklets for your child to work through in the Spring Term. I have also attached the equations list that students should recall and rearrange in the Physics examination. Separate Science students will have additional equations to learn, they will be aware of these equations from their lessons.

I strongly advise that your child revises thoroughly over the February half term. They should spend equal amounts of revision time on both the paper 1 and the paper 2 content. The checklists for these topics can be accessed via the schools i: drive.

If you have any further questions as to what your child can do to further revise please contact the class teacher who will be able to give precise details. If you have any other questions then do not hesitate to contact me.

Yours sincerely

Miss S Burgess
Deputy Head of Faculty Science (Key Stage Four)
