Dear Parents and Carers

Re: Mock Maths Exam

I am writing to let you know that your child will be sitting a mock maths exam in September.

Sets 1-3 will sit a Higher paper, sets 4-6 will set a Foundation paper. These will be used to inform set changes, to ensure that every student is in the group that will give them the best possible GCSE result. It will also help us to determine whether they will be entered for the higher or foundation tier of entry for the January PPE.

This September exam will consist of one calculator paper and will take place over the course of two lessons, week beginning 14 September 2020.

Enclosed is a list of revision materials to assist with summer learning. It is expected that students complete a minimum of one hour of maths per week.

If you have any further questions, please do not hesitate to contact me.

Yours sincerely

Mrs E Sheehan
Deputy Head of Mathematics
