Dear Parents and Carers

This year St Martin's School have signed up some of our students to Literacy Planet, a computer-based program that tailors instruction to their specific needs. The activities in Literacy Planet support and build on our English language classroom curriculum, focusing on developing skills in spelling, punctuation, grammar and comprehension.

Students can login at the following address: <https://app.literacyplanet.com/login>

Their username and password will be given to them at school. I do, however, have a list of these if they forget or lose their login cards. You can email me at: sfernandez@st-martins.essex.sch.uk to request a reminder.

Ideally students should be aiming to complete one hour per week. We will, where possible, try to give them some access to this in school time as well.

Please note that this is currently on a trial basis. If your son or daughter uses the program regularly, which we hope they do, then they will be able to continue using their account when the trial period ends.

Yours sincerely

Mrs S Fernandez

Lead Practitioner and Pupil Premium Coordinator
