Dear Parents and Carers

With the new security gate system now in operation, I would like to remind parents that you will be unable to drive down past main reception to drop off your child before school and to collect your child after school.

In light of this, it is advisable, especially for picking up your child at 3.15pm that a meeting point outside of school is considered to avoid congestion in the car park at this time; St Martin's contract buses will be present in the car park, which limits the available space.

I would also like to advise that nearby side roads often become busy, and would suggest another alternative is agreed upon in consideration of our neighbours and local residents.

In an aim to reduce the possible congestion, please can I ask that parents and carers consider alternative options and areas for picking their child up from school. Your support and cooperation on this matter is much appreciated.

Thanks in advance.

Yours sincerely

Mr J Beddow
Director of KS3
